CCS-UN

Committee of the Chief Statisticians
of the United Nations System

Mission:

- Promotes coherent and integrated system-wide United Nations actions.

- Supports statistics at the national, regional and international levels (in line with the *Principles Governing International Statistical Activities*, and the *Fundamental Principles of Official Statistics*).

- Encourages coordinated efforts by UN agencies and programmes in strengthening national statistical capacity.

- Supports the modernization of national statistical systems and the reinforcement of their capacity to respond to new data demands for underpinning evidence-based policymaking, including the monitoring of global, regional and national development goals.

- Supports the development and full implementation of international statistical standards in member States for the production of high-quality and internationally comparable data.

- Promotes the coordination of the statistical programmes of the UN system to "deliver as one", by fostering synergies, avoiding duplication and overlap, and facilitating data exchange.

- It promotes the adoption of common quality criteria to drive the statistical production of all agencies of the UN system and supports the sharing of knowledge and good practices.

- Defines common UN positions on statistical matters, to be reported at the Statistical Commission or at other coordination bodies, such as the CCSA.
